

Drug Companies Fear Release of "Jacked Up" Pill

Big Pharma executives are nervous. Analysts expect new natural "Jacked Up" pill could put a huge crimp in sales to men over 50. Pill said to restore strength; energy, metabolism, sex-drive, memory and focus back to health-levels of a 30-year-old man.

NEW YORK:

It's hard to believe that in America today; a pill that could change the lives of millions of men is in danger of being yanked from the shelves. And it's just because big drug companies fear for their profits!

Right now, the pharmaceutical industry is desperately trying to stop shipments of the widely anticipated "Jacked Up" pill. The pill, made for men over 50, was released early last month. Yet, despite Big Pharma's efforts, sales have already exceeded expectations.

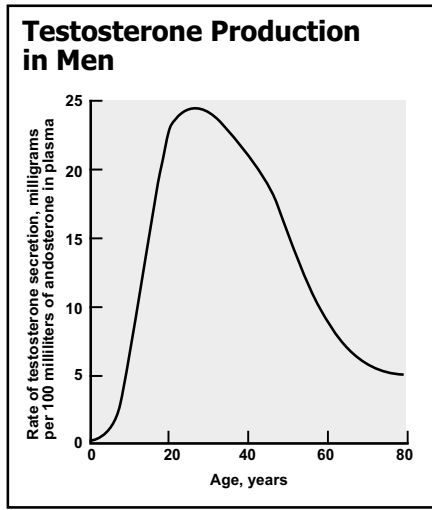

"If you're over 50 and healthy...with a strong body, a healthy sex drive, a clear mind and youthful looks; you aren't likely to be buying expensive prescription pills"

Jaw-Dropping Results

The name says it all. The "Jacked Up" pill helps evaporate body fat, builds muscle mass, restores sex drive, increases energy, improves circulation and mental capacity - and boosts testosterone levels up to a whopping 170%. Doctors are astounded by its effects.

What You Stand to Lose If Big Business Wins

Why do drug companies want this pill stopped? Since the "Jacked Up" pill is natural, drug companies can't patent it (like they did with Viagra) and make big profits. Plus, **if you're over 50 and healthy, with a strong body, a healthy sex drive, a clear mind and youthful looks; you aren't likely to be buying expensive prescription pills.** That's the very reason big business is trying to have it pulled from the shelves.

How It Works

The "Jacked Up" pill works by reigniting testosterone production in older men (to levels they enjoyed in their early 30's). This formulation doesn't force dangerous synthetic testosterone into your body like injections do. Instead, it works with your body to produce testosterone naturally. And the results have been extraordinary. Men report "FEELING STRONG... WITH MORE ENERGY, FOCUS, DRIVE, AND ENJOY AN INSATIABLE LIBIDO!" It's like your body reboots itself to feel like it did in the prime of your life.

All across the country, older men are experiencing the startling effects of the 'Jacked Up' pill. No wonder why drug companies are so worried.

Initial Users Are Thrilled!

"After 6 weeks I'm impressed! I'm getting lean but NOT losing strength and size... plus MY ABS ARE BACK!

- Eddie D. of Tarrytown, NY

"I'm 67 years old and playing tennis again... tennis!

- Guy R. of Fresno, CA

It's a miracle! I jump out of bed in the morning instead of crawl. I feel so much stronger too. Thank you for this!

- Michael B. of Dayton, OH

"Big Pharma" Fat Cats Want It Gone

The powerful Pharma companies don't want this to be available to the public any longer. They want to produce their own synthetic version of the "Jacked Up" pill (They've

tried. It doesn't work)...

Experts agree the "Jacked Up" pill is revolutionary.

You will see your belly fat melt away, enjoy impressive muscle growth, new interest in sexual relations, you'll feel younger, better, healthier, stronger, and your mind will feel focused and remarkably clear. But if big business gets its way you'll never have the chance to experience it for yourself. But you better stock up now... before it's too late!

Limited Supply

Supplies are disappearing quickly. People are scrambling to get their hands on as much as they can before it's gone. If Big Business wins, you will no longer be able to buy it - at any price! For now, you can still get the "Jacked Up" pill over the counter, without a prescription. The changes you will see in your body are miraculous (fat evaporates, muscle mass builds, your sex drive and youthful energy returns, circulation intensifies-- and your testosterone levels are restored).

The effects will be felt for years to come. But the distributors aren't sure how long they can sustain the pressure drug companies are putting on elected officials to halt its sale. So even if big government and Big-Pharma eventually succeed in burying "The Jacked Up Pill" - you can reap its benefits NOW and secure your well-being far into the future.
